

# EQUIPMENT BOX (EB)

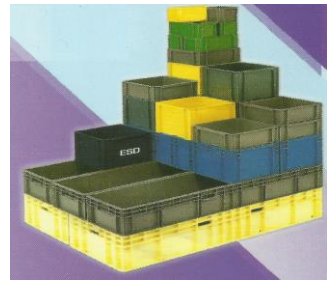

PP CORRUGATED SHEET

NEYCOM BUBBLE SHEET

PP SOLID SHEET

TP POLYBOX

Equipment Box (EB) is made of honeycomb structure plastic hollow sheet with high impact resistance and longer life span.

It is designed as a rust-proof, water-proof and termite-proof container for all types of equipment (testing equipment, audio and visual equipment, high precision equipment). More important, it is 30% lighter than wood-base case box thus save freight charges in air-transport. The EB can be custom-made in sizes to suit the products / equipment.

1. Inside with full surface cushioning.
2. Aluminium reinforcement at all edges and corners for better protection.
3. PU caster wheels for easy movement.
4. Tension latch with pad lock for security purposes.
5. Metal handle for lifting / pulling.
