

HEAVY DUTY BUBBLE BOX (HB)

PP CORRUGATED SHEET

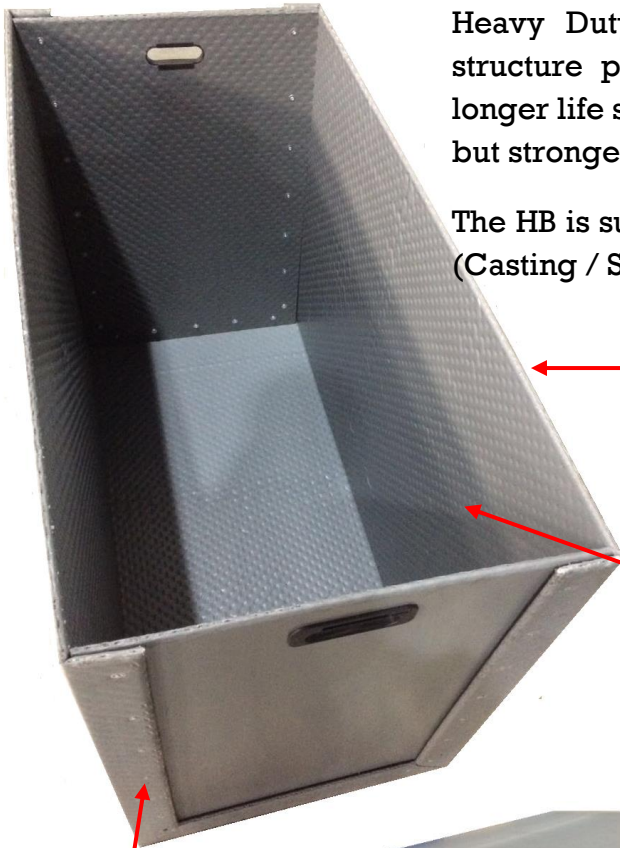

NEYCOM BUBBLE SHEET

PP SOLID SHEET

TP POLYBOX

Heavy Duty Bubble Box (HB) is made of honeycomb structure plastic sheet with high impact resistance and longer life span. It is designed to make at lower mould cost but stronger than moulded box.

The HB is suitable to use in Automotive and Metal Products (Casting / Stamping / Moulding / Engineering) industries.

Heat seal edges

Honeycomb structure sheet

Heat, fold and join with rivets + metal washers

Hard plastic corner protector
For stacking and to protect the bottom of the box from scratches.

Strong & Durable

It can sustain a drop from 20ft height with no break, and can carry more than 20kgs of weight.
