

NEYCOM® BUBBLE GUARD

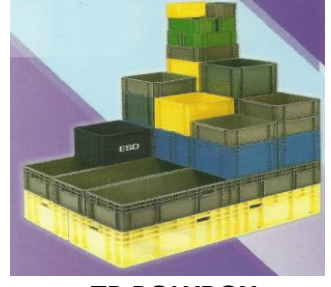

PP CORRUGATED SHEET

NEYCOM BUBBLE SHEET

PP SOLID SHEET

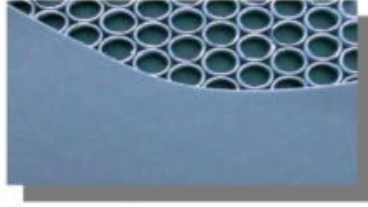

TP POLYBOX

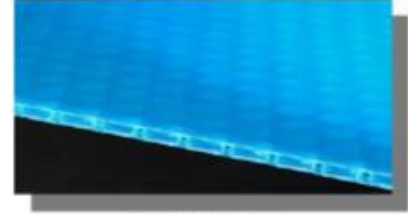

The 1st and only not just in Malaysia, but in the whole South East Asia region, we are proud to introduced a very special materials called PP Bubble sheets (Neycom Bubble Guard). Different from the common “I-flute” structure of the PP corrugated sheet, the structure of the PP bubble sheet is more like a honey-comb, which make it a much more solid and strong material, and yet maintain the characteristic of light weight.

Cells covered
(frontal view)

Cells in sight
(frontal view)

Cells in sight
(lateral view)

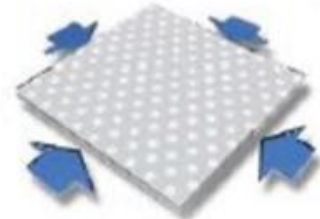

Extraordinary flatness and smoothness on both sides

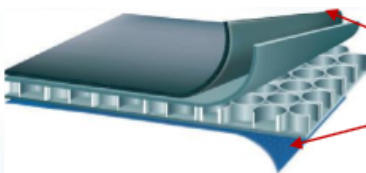

Homogeneous resistance all over the surface

No more worries about flute directions

Neycome PP Bubble Sheet is available in different gsm (weight), thickness and bubble diameter, furthermore, it can come with various in-line lamination!

Sides of lamination by heating

It is possible to laminate on one or two sides.
It is possible also to laminate two different addings.

In-line hot lamination
(without glue)

- EPP
- Non-woven
- Spunbonded
- Needle punched
- Alkor
- TPO
